Submission: VERY IMPORTANT UPDATE

There is a very important development taking place which everyone needs to be aware of. The North West Regional Assembly is a body made up of representatives from the County Councils of the region from Galway to Donegal and it decides strategic planning policy for our region. Every ten years that policy is reviewed and such a review is underway right now. If we want our Quiet Man Greenway to become part of that policy, everyone of us needs to make our voice heard.

So here is what you need to do folks....and it's very simple. Just click on the following link and copy and paste the text in my comment below this post into the "Submission" box. My comment can be found at the very beginning of what is now a very long list of comments! Add your name and email address and you're done. It takes two minutes, and then please share this post.

<https://www.nwra.ie/rses/>

Please take the time to do this, the closing date for submissions is the 8th of February.

Thanks in particular to Brendan Quinn who worked on this text for us.
