Submission: I wish to make the following submission in respect of NWRA/RSES draft report.

I fully endorse and support objectives 115a and 115b of the report that supports the reopening of the Western Rail Corridor from Athenry to Colloney, which will develop and support the Western Region with additional much needed Rail Infrastructure it will relive both freight traffic and passenger vehicle congestion. I also wish to add that some the main medical centers of excellence are in Galway therefore, having access by train for cancer and other services would eliminate the pain and anxiety currently suffered by many people.

Your sincerely

Jackie Marren
